

Structural Engineering Services, Structural Engineering Design Drafting

Outsourcing Structural Engineering Services, Structural Engineering Design Drafting

Indeed, myriad **structural engineering services** providers are surviving in the domain of our operations but alas, handful of them comprehends the nature of these services. At [7Solutions India](#), we acknowledge the value of innovation, industry standards, contemporary machinery and adept workforce that's why we retain and believe in doing the same as well. From distinct areas of a **structural engineering design and analysis**, we receive preliminary, conceptual and detail designing projects because the clients rely on us and our proficient workforce is predominantly intended to delivery industry's top-notch Structural Engineering Design services. Being a veteran company, we firmly believe in maintaining the world-class standards in terms of quality, reducing the designing time frames and overall cost.

Our preeminent designers prop up all the phases of structural engineering design process that includes modeling to analysis of pre-existing designs and construction documentation.

At 7Solutions India, our primary structural engineering services include:

High Rise Structures

For all sorts of commercial and residential buildings, we carryout designing and analysis procedures enforcing modernized tools and industry's standard design. Moreover, we also utilize in-house built tools. Mainly we cover the following services.

- Steel, RCC and Composite Structures
- Prefabricated Building Systems

Industrial Structures

So far, our unrivalled team of professionals did numerous industrial projects including machine foundations and load bearing structures. That's why our quintessential industry segments aren't limited to:

- Oil Refineries
- Composite Structures
- Chemical Plants
- Power Generating Units
- Equipment Foundations
- Printing Press Services

Custom Homes

Utilizing location standards and applicable codes, our specialists carry out the designs of custom homes and their analysis

- RCC Homes / Masonry Homes
- RCC Homes / Masonry Homes

Our Methodology:

- Our qualified engineers retaining extensive experience undertakes the overall responsibility of preliminary, conceptual and detailed design projects.
- To finish the project, our electrical and structural designers and project engineers will work with your primary contacts.
- To meet the laid requirements and structural standards, our skilful engineers will adapt their structural analysis approach. The principal objective behind adapting this methodology is to allow the input of information in the form of a graphical interface.
- To develop a communication plan and design standard we work with our engineers to ensure repeatable, consistent and high quality performance.
- Our experts channelize all their resources and means to extract the expected result that perhaps is in the form of layout of plans, elevation and structural detail drawings.
- The result will be in the form of tabular and graphical output that will flow seamlessly.

Today, 7Solutions India is proud of its services and we can guarantee you utmost benefits, from low operating cost to high-quality services. Since 2007, Structural engineering company India providing **professional structural engineering design** to the structural engineers and architects. [Contact us](#) to get more details about our low price structural engineering design services and sample.
